## Java error in Cégep à distance courses for Mac

The new Java version 7 update 51 uses stricter security conditions. If you cannot see the tabs in your courses, or if you are getting this error message:

Application Blocked	×
Application Blocked by Security Settings	í
Name: Location: Your security settings have blocked an untrusted application from running	
	ОК

you will have to change your Java settings.

- Please note that if your OS X is higher than 10.7.3, you will have to do the Java update manually by going to <a href="http://www.java.com">http://www.java.com</a>.

- We recommend that you use Firefox or Chrome rather than Safari for your Cégep à distance courses. You can download these browsers from:

Firefox: <a href="http://www.mozilla.org">http://www.mozilla.org</a>

Chrome: <a href="https://www.google.ca/intl/fr/chrome/browser/">https://www.google.ca/intl/fr/chrome/browser/</a>

Go to "System Preferences" from the Apple icon.

Click on the Java icon.
