

## Java error in Cégep à distance courses for Pc

The new Java version 7 update 51 uses stricter security conditions.

If you cannot see the tabs in your courses or if you get the following error message:

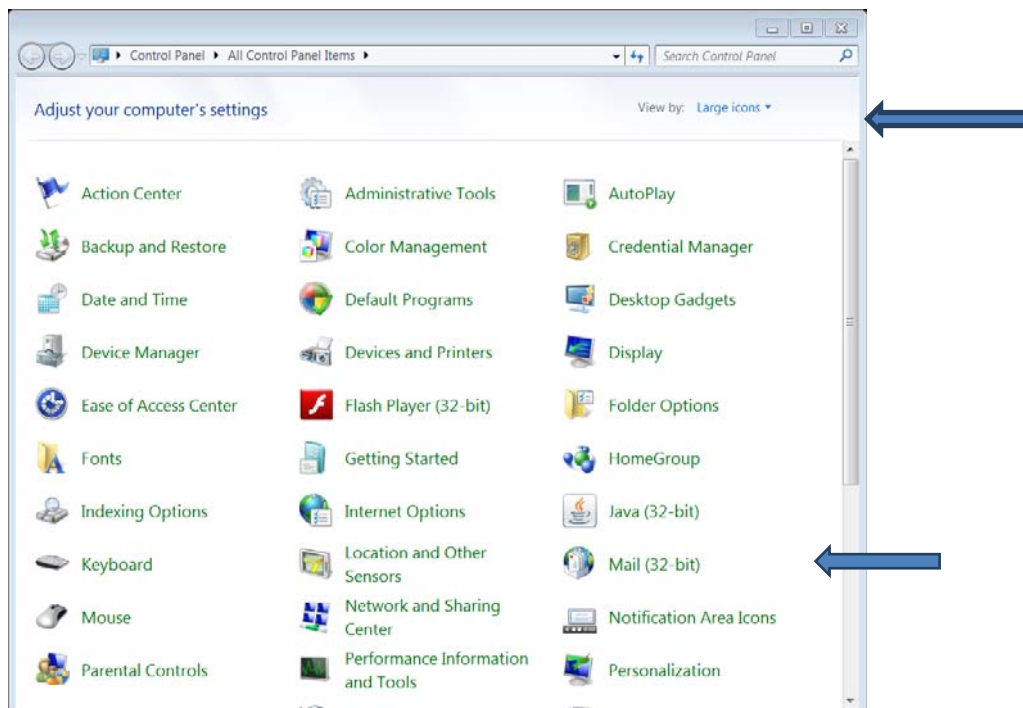

You will have to change your Java settings.

Open the Windows control panel. Make sure the display is set to large icons or small icons.

- Please note that the procedure may differ based on the version of Windows you have.

Please follow these **steps to uninstall any earlier versions** of Java that are already on your computer: [http://www.java.com/en/download/help/uninstall\\_java.xml](http://www.java.com/en/download/help/uninstall_java.xml)

After you uninstall Java, please go to [www.java.com](http://www.java.com) to download and install the latest version of Java. Once the installation is complete, please follow these steps to configure it:

- Open the Java control panel and go to the Security tab.
- Click on "Edit Site List..."
- Add <http://www.cegepadistance.ca> to the Exception Site List.
- Click on "Restore Security Prompts."
- Click OK.
- Then you have to accept all the Java security messages on the Cégep à Distance website.
